## Overview

HF 642 would allow home production of distilled spirits.

## Summary

Section	Description
---------	-------------

- |   |   |
|---|---|
| 1 | <p><b>Unlicensed manufacture.</b></p> <p>This section would allow the home distillation of spirits without a license. Total annual production of spirits would be limited to 100 gallons.</p> <p>Currently, only wine or beer may be produced at home without a license. Current provisions allowing limited public sampling or tasting of home-produced beer and wine would also apply to the home-produced spirits.</p> |
| 2 | <p><b>Repealer.</b></p> <p>This section would repeal the law providing that an unauthorized still is prima facie evidence of unlawful production.</p>   |
