

**Subject** Exposing Children and Vulnerable Adults to Fentanyl

**Authors** Knudsen

**Analyst** Jeff Diebel

**Date** March 10, 2025

## Summary

This bill creates a new criminal offense that imposes a five-year felony on persons who knowingly cause or permit a child or vulnerable adult to inhale, be exposed to, have contact with, or ingest fentanyl. A violation of this proposed law would not preclude prosecution for other crimes that arise out of the offender's possession and use of fentanyl.
