Date March 5, 2025

Summary

This bill would reduce a state agency's enacted FY 2026-2027 operating budget when an open position posted by the agency goes unfilled for 12 months. The reduction would apply only to positions posted by the agency in fiscal years 2025, 2026, and 2027, excluding any position that requires law enforcement training. Any FY 2026-2027 reduction would be applied to the agency's base budget for FY 2028-2029.

Minnesota Management and Budget would report reductions by agency to the chairs and ranking minority members of the Ways and Means Committee in the House of Representatives and the Finance Committee in the Senate.
